

KurNiv Success Solutions

"Defining Organizations"

*In viewing the big picture, companies forget that it is only an assimilation of small finer dots that form the picture....
KurNiv Success Solutions will assimilate your dots for you!*

KurNiv Success Solutions (KNSS) designs organizations to effectively compete in today's constantly growing and changing global market.

- Integrating the diversity of an organization's human capital into a structural whole
- Motivating this structural whole to then move the company towards well-defined success
- Developing individual, team and corporate goals which help define Success
- Shaping thought processes to align with the corporate goals, while understanding personal goals
- Delivering business success by teaching business skills, life skills, soft skills, job skills, and language skills.

KNSS teaches people to think in terms of growth. Understanding thought processes, helps us shape them and once in shape working consistently on the same allows for growth.

KNSS brings value addition to a growing organization. A well-designed and implemented training program ensures that employees are growing and are in alignment with a company's growth.

KNSS defines organizations. Creating significant impact on personnel retention and revenue bottom line by teaching you to use common business tools effectively.

The KNSS team is diverse, efficient and competent. It is made up of business professionals and educators, with experience across the areas of education, corporate training, risk and return, finance, internal audit, marketing, human resources, social responsibility, real estate sales, banking sales, customer service and creating new market niches. The team's industry experience spans hospitality, banking, real estate, mergers and acquisitions, teaching and publication.

Together the KNSS team has an outstanding track record in business analyses and training, with strengths in Project Management, Business Development and Creating Competitive Advantage.
